

When reading books, count number of objects in images.

When cooking, count ingredients and quantities

- Eg. How many carrots do we need to cut? How many pieces will we make?

Play a board game using a dot or number dice.

Roll a dice, then collect that many objects.

- Eg. Cars, dolls, boxes

Number Activities

Set the table for a family meal?

- How many plates, cups, forks etc do you need

Who has the most socks in your house? Who has the least socks in your house?

- Collect and count pairs and/or individual socks

Sing number songs

- eg. 5 Little Ducks, 10 in the Bed

Make bowling pins using recyclable bottles or cans. Number them.

- How many did you knock over?
- Can you record your results?
