

QUALITY IMPROVEMENT GOALS 2023

Our Vision

For all our children to become confident resilient, socially competent individuals

OUR GOAL IS TO ...

To build upon children's current abilities and knowledge to make marks, draw and explore emergent writing

OUR ACTIONS ...

Each teacher and educator will build their understanding of the developmental stages of writing.

Each teacher and educator will provide opportunities through purposeful planning and intentional teaching for children to develop their gross and fine motor skills to manipulate a range of mark making tools

Each teacher and educator will analyse, monitor and assess children's growth in communicating the meaning of their mark making, drawing and emergent writing and use data to plan intentional and strategic interventions

Each teacher and educator will collaborate to co-plan intentional teaching experiences that promote and support children's understanding of concepts of print

Each teacher and educator will provide opportunities through intentional teaching to design and construct print rich environments which support children to use mark making, drawing and emergent writing

OUR SUCCESS CRITERIA

We will see each child manipulating a range of tools to engage in mark making, drawing and emergent writing

We will see each child communicating the meaning of their mark making, drawing and emergent writing to others

We will see each child demonstrating their understanding of concepts of print

We will see each child choosing to use mark making, drawing and emergent writing in their play

OUR GOAL AND ACTIONS REFLECT THE FOLLOWING QUALITY AREAS

QA1 - Educational program and practice

QA6 - Collaborative partnerships with families and community

QA5 - Relationships with children

QA7 - Governance & leadership
